Pratik Garad

+91 8329653229 | pratikgarad9822@gmail.com|LinkedIn | GitHub | PortFolio

Technical Skills

Web Development Frameworks: React.js, Express.js, Node.js, Django
Programming Languages: Python, Javascript
Developer Tools: GitHub, VS Code, Postman
Design and UI Tools: Tailwind CSS
ORM and Database: Mongoose, MongoDB, Neo4j

Projects

Quick Task (Home Services Platform) —Live | GitHub

- Built a comprehensive home services platform enabling users to book various home services from verified service providers.
- Developed a dual-interface application with separate user and service provider dashboards for seamless task management.
- Created RESTful APIs using Node.js and Express.js for user authentication, service listings, booking management, and payments.
- Implemented MongoDB database to store user profiles, service provider information, service categories, and booking history.

Personal Portfolio Website—Live | GitHub

- Built a fully responsive portfolio website showcasing projects and skills using JavaScript, HTML, and CSS.
- Integrated interactive UI elements and event-driven functionality using vanilla JavaScript.
- Applied responsive design principles (Flexbox, Grid, Media Queries) for mobile-first optimization.
- Deployed the project with optimized performance and clean code architecture.

NewsFlash-Know-More Scroll Less—Live | GitHub

- Built a highly dynamic web application primarily using JavaScript with minimal dependency on external libraries.
- Integrated third-party APIs for real-time data consumption and rendering.
- Managed asynchronous data flows using async/await and structured error handling.
- Designed scalable and maintainable code architecture following modular programming principles.

Expert Management System—Live | GitHub

- Architected and developed a real-time full-stack booking platform with React, Node.js, Express, and MongoDB.
- Engineered race-condition-safe booking logic to prevent duplicate reservations.
- Implemented WebSocket-based real-time slot synchronization using Socket.io.
- Designed RESTful APIs with modular MVC architecture and environment-based configuration.

Education

Master Of Computer Application (MCA)
Savitribai Phule University — *Aug. 2025 – May 2027*

Bachelor in Forensic Science
Shivaji University — *Aug. 2021 – May 2024*
CGPA:9.15
